

PR10PLB

These sound projectors are made with state-of-the-art materials and designed for high quality audio performance.

ABS 10W SOUND PROJECTOR These sound projectors are made with state-of-the-art materials and designed for high quality audio performance. These sound projectors are supplied with a painted steel bracket and line transformer to work in 100V constant voltage applications. Available in either white (PR10PL) and black (PR10PLB) finish. Suited for indoor and outdoor applications.

Order code: PA PR10PLB

TECNICAL SPECS

Constant voltage binding	2.5 / 5 / 10 W
Frequency response	160 Hz - 16 KHz
SPL (1W/m)	91 dB
Construction materials	ABS
Colour	Black
Weight	1.9 kg (4.1895 lb)
Constant voltage input	100 V
Protection rating	IP 44
Dimension	Ø 138 - P 190
Master pack	1 pc
System type	ABS sound projector
